\*The Gaz meter to connect with the Gas module is in a separate box

# QUICK INSTALLATION GUIDE

The Gas module allows you to monitoring the gas consumption in your home, to raise your family and save up to 15% on your bill.

## Connecting the Gas Module

- Add the Gas Module to your installation by logging into your customer account, click on "My Home  " icon, then "My modules". Click "ADD MODULE" and enter the module number and the security number found on the back of the module.
- Wait a minute.
- Connect the gas meter's power cable to the Gas module plug.
- Stay close to the Kub when you remove the tab from the battery of the Gas module to put the module into service. After you can put the module at its ultimate placement. It could appear "not connected" (NC) during the first 2 hours.

⇒ ***We advise you to call a professional to install the gas meter.  
Don't hesitate to contact us in order to know the list of installers.***

**Your Gas Module is now in ready to go.**
